## CYBONET APPOINTS REGIONAL DIRECTOR FOR EUROPE AND NORDICS

**Haifa, Israel—October 1, 2016:** CYBONET today announced the appointment of Mr. Graham McIntyre as the new Channel Director for Europe and the Nordics. Graham brings a wealth of channel management experience and has worked with HP, IBM and, most recently, served as a Channel Director for GFI.

“CYBONET’s continued growth in the European and Nordic markets represents a key strategic priority for the company. Graham’s years of experience will help CYBONET expand its market reach for our current and future cyber security solutions” stated CYBONET’s CEO David Feldman.

The announcement comes during a particularly important transition period for CYBONET. With the recent release of PineApp Mail Secure 5.1 and planned release of the Cybowall Endpoint Threat Detection and Resolution solution, slated for 2017, Graham’s role will be to educate and support a growing distribution channel as CYBONET’s product portfolio expands.

“I am very excited to be working with a company that has world class security products and support. The CYBONET Development team has some of the best minds in the business. CYBONET’s reputation in the market is growing in leaps and bounds and I am looking forward to starting this journey with them.” commented McIntyre.

### ABOUT CYBONET

CYBONET, formerly known as PineApp, was originally established as an Email Security Solutions Company. Since 2002 CYBONET 's internet security and network control products have enabled SMB/Es and Telcos to comprehensively protect their critical network infrastructure. Whether through the flagship PineApp Mail Secure solution or the next generation of cyber protection solutions, CYBONET is dedicated to security.
